Subject: San Mateo Impact Issue

Dear Committee member,

I'd like to express my deep concern over the building and infrastructure issues facing San Mateo.

I was not aware that there was a meeting held to discuss the impact of future building in San Mateo. I'm told it was happening over the holiday week when most people are out of town and there has not been sufficient outreach to the community to get their input. This is unacceptable. I hope that you will consider talking to the committee members about getting the word out to the community in a more effective manor. Most community members have no idea that decisions are being made that will have a very negative impact on the traffic, schools, safety and more. There needs to be better outreach to the community and a scheduled meeting time that is not during a holiday week when most folks are out of town.

I thank you for your consideration and for taking part in this very important issue that will have long lasting repercussions to this community.

Kind regards,

Jamie
