Subject: General plan and housing

Dear San Mateo planners,

I strongly urge you to include as much affordable housing as possible at all densities in the general plan. We can not afford to continue our trajectory toward becoming a community of haves and have nots with a veneer of egalitarianism on top of essentially exclusionary visions of our city. We need dense housing and we also need more housing, and we need housing for families with more than one kid. We need multi family housing and we need transportation to and from housing to jobs.

Please incorporate this into our general plan.

Eleanor Lewis
