Subject: Additional Comments

Under the Heading OTHER:

In 2040, I hope that the City of San Mateo will be able to have ZERO TRASH. In other words, 1) the City of San Mateo will provide regular cleaning of the streets; and, 2) all City of San Mateo business-owners and home-owners will clean up the outdoor grounds of their establishments and outdoor grounds of their homes, respectively, to collect ALL trash that gets thrown out by drivers and tossed by pedestrians.
