**Subject:** Construction hours

Hello, not sure if this is the correct email to send this to, but I'm having big issues with construction hours in San Mateo. There is a long term project going on two doors away from us, and the hammers start pounding away at 7:00AM sharp.

Through the Nextdoor app, there are many many people who feel the way I do.

How do we go about changing these hours? Even 8:00AM is way better than 7:00AM. My mother has Alzheimer's, so we have a full time job working with her, and being awakened at that early hour has truly been a hardship.

I live in San Mateo Park neighborhood. Any feedback would be appreciated.

Thank you,

Jonathan Huddleston
