Subject: Item 21 --August 19th City Council Meeting

Mayor Papan,

I'm writing to you to request your support of the existing study map developed as part of the San Mateo General Plan 2040 and to vote down the new alternative study map being proposed by the Housing Leadership Council. San Mateo is a unique city with beautiful R1 zoned neighborhoods and does not need the addition of multi-unit housing in them. The existing plan was developed over time with input from a number city groups, the HLC proposal is a desire of an advocacy group with little or no care of the direction of this city.
