October 26, 2018

Dear Ms. Klein,

Ron Munekawa suggested I give you a copy of this report so I dropped off a copy today.

This Historic Resources Evaluation Report provides an evaluation for 1007 East 5th Avenue, San Mateo, California under the California Register of Historical Resources (California Register) criteria.

The term covers any resource listed in or determined to be eligible for listing in the California Register.

The report was prepared by Denise Bradley, Landscape Historian and Ward Hill, Architectural Historian.

Under CEQA public agencies must consider the effects of their actions on both "historical resources" and "unique archaeological resources."

I would like to share this report with the General Plan Subcommittee Members and other departments in the City of San Mateo.

Please include this Historic Resources Evaluation Report in the EIR for the General Plan.

We are very concerned with the diesel soot, noise, and vibrations from the heavy truck traffic in this area and high cut-through traffic volumes.

I can also provide a PDF copy of the report if needed.

Thank you.

Sincerely,

Laurie Watanuki  
1007 East 5th Avenue  
San Mateo, CA 94402
