Hello Julia –

Please find attached the Sierra Club Loma Prieta Chapter Guidelines for Downtown and Station Area Plans. Gita Dev and Ken Abreu had mentioned these to you in October. We would be happy to go through these with the staff and Subcommittee members at the appropriate venue.

Please let me know what is the best way to proceed. I will be attending the December 17 Subcommittee meeting.

Thank you,  
Nancy

Hi Julia,

Thank you for your prompt response to our interest in sharing the planning Guidelines - this is useful as a checklist to evaluate and guide a plan.

We are definitely interested in sharing the information in any setting that you feel would be most appropriate. The person who would be best to contact is resident Nancy Schneider who is copied on this email. She will be in touch with you.

Regarding a PDF of the presentation, we should be able to get that to you in a little while, maybe after you and Nancy have had a chance to connect on the issue.

Regards,

Gita Dev

Hi Gita,

Thank you for your email and letter, and the Sierra Club's interest in sharing information; however, the agenda for the October 16th meeting has been set for a while now to allow the committee to review existing conditions reports.

Additionally, given that the subcommittee's role is focused on reviewing General Plan work products, staff is concerned that presentations by various groups during the subcommittee meetings may unduly delay the committee's work. If you have a presentation in PDF format that you would like to forward me, I can forward it to the committee along with other public comments.

We are looking into other opportunities to share information from other agencies, and perhaps your group's information may be more appropriate in an alternative type of setting. Please let me know whether if your group is interested in this and if so, who I should speak with.

Thanks,

Dear Ms. Klein,

The Sierra Club Loma Prieta Chapter's Sustainable Land Use Committee would like to **present our "Guidelines for Downtown and Station Area Plans" to the San Mateo General Plan Subcommittee**, as it is regarded as a useful tool when revising and evaluating Specific and General Plans.

We believe it would be useful for the Committee as well as the community to hear the ideas in the Guidelines, which could be considered in the General Plan process.

Please review the attached brief letter and let us know how we can proceed.

Sincerely,

*Gita Dev, Co-Chair, Sustainable Land Use Committee*
