Thank you for your communication.

I am copying our City Clerk to ensure that it is made a part of the record on this matter.

With best regards,

Diane Papan

Subject: objections to more density in area

Hi - I dont have anything special to say - just the usual objection to overcrowding and lowering of property values

and the only ones to gain are the ones making money off these deals - they apparently don't care about anything else.

If someone starts a petition, I will gladly sign.
