Hello Planning Division,

I would like to better understand how I can be a part of the ongoing discussions and committees that will make decisions on the proposed study areas for higher density and transit-oriented housing. A resident since 1998, I have not come across any of your notices for public participation or comment except recently on Next-door leading up to the Aug 19th city council meeting. Who is on the proposed study area committee and how can I, as a resident, become a part of them in the future? How have you been advertising input into the 2040 General Plan?

Thank you
Ann Olson
