Hi Jeanne and John Patrick Kelly,

Thanks for your comments.

Infrastructure projects takes time to plan and implement. The current General Plan 2030 was developed with community input and included a list of infrastructure projects. The community engagement for General Plan 2030 occurred in 2008 - 2010, during the Great Recession. Neither the city staff nor the community members who participated at that time anticipated the level of economic growth in the Bay Area that we have been experiencing. Some level of recovery was anticipated; but pace of recovery was faster and the level of growth since recovery was also not anticipated.

It's clear San Mateo's General Plan 2030 needs to be updated for a variety of reasons that community members have expressed as concerns. We're seeking community input to help develop San Mateo's General Plan 2040. Thanks for your circulation, development and safety related comments below. Would you clarify what you mean by "LPR'd"?

Thanks,
The General Plan Team
