Subject: New message on Strive San Mateo

Name: Jeffrey Marque

Email: [REDACTED]

Message: I want to start by thanking our local government for making San Mateo such a wonderful place to live. Great governance! However, I am also concerned that our local government is about to squander a tremendous, and urgent, opportunity: I have reviewed the three plans for changing bus schedules and routes, and am afraid that these plans do not do nearly enough to allow people to get out of their cars. The climate emergency is very real, but the proposed plans do not do nearly enough to reduce private car use. As I have mentioned many times, we need to hire outside experts in mass transit to help us come up with options that truly reduce our carbon emissions. What I've seen so far are just band-aids compared to the changes that are really needed.

Thanks again for making San Mateo a great place to live.

Jeffrey Marque, Ph.D (physics)
