Subject: City Plan

Mr. Dahl

I have followed with interest the planning process for our City.

We are 40 year plus residents of this City. We love our community, and routinely walk or bike various neighborhoods, each distinct in style and culture.

I feel that future planning must consider and maintain our neighborhoods. Dense growth of habitations with reduced space for planting, parking, and leisure will destroy the neighborhood texture of our City.

We must recognize and maintain the distinct features that attracted San Mateans to our City.

Stephen Weller, MD
