Message: I attended the presentation about the proposed alternatives for the General Plan. I have two major concerns. 1. I see all 3 alternatives negatively impacting seniors and the handicapped in their ability move around downtown. I would like to see senior organizations that advocate for the seniors be more involved in the process. 2. I would like to see specific plans for addressing the impact on infrastructure (schools, waste water, water supply, healthcare etc) as more housing is built. I would like the needs of residents addressed more than corporate builders.
