Subject: GPU meeting 3/3/ 2022 - (4) Universal Digital Transit Fares

Zachary Dahl –

This is my fourth comment. Please find information on digital transit fares. The main action point is **SB 917** which was introduced yesterday. Even if the bill does not become law, this is the direction that fare taking will go. I know that there has been talk of this in silicon valley, but I can't find the resources. Examples of other cities with uniform digital fareage included
