**Subject:** GPU meeting 3/3/ 2022 - (3) Transit Oriented Disaster Response

Zachary Dahl –

Please find additional discussion for tonight’s GPU meeting on the topic of Disaster Response as it pertains to the General Plan Update. I believe that city staff is up to date on much of this, however many of these “living” docs have not been updated with Bay Meadows, and should be updated prior to any further expansion.

Years ago I did work on the SSMC indicators report which covered transportation and I have been following it on and off.
