Subject: Support for Alternative A in General Plan

Dear City Council

As a San Mateo resident for the past 22 years, I have witnessed many changes. Some good ones like more medical facilities and recreation opportunities, but also the crazy increase in traffic and crime in our city. Let's keep San Mateo a beautiful place to live by supporting a General Plan that includes no more than 30% growth in population. Please consider the needs of our School District as well. Can the School District handle more students?
Please support alternative A.

Thank you

Cuau L.
