Subject: Growth Alternatives

Dear Planning Commissioners and City Council Members,

I support Alternative A which provides for 33% growth. This alternative provides for growth while creating the least impact to our quality of life. Already, we suffer from lack of park space, water concerns, traffic problems, and other infrastructure issues. The truth is that our infrastructure has not (or can't) kept up with the current levels of growth. And the other alternatives fail to recognize the new post-covid reality which is that people want to live in less dense areas and work from home so more home space is necessary (larger, not smaller homes/condos/apts necessary). San Mateo is a suburb of San Francisco – let's keep its suburban nature and not turn it into a huge city.

Thanks,
Robin Gage
