Subject: Comments from a long term 71 yrs resident

I support the A choice. I do Not Like the others at all
My name is Rick KARR and was born in Mills Hospital in 1950. My father was a GP who came here in 1937. My brothers went to San Mateo HS so we are well acquainted with SM. Many poor decisions have been made and approved by planning Commission and city council and I feel it is important to speak out. Basically when construction is done , you cannot go back and resurrect what was so each decision is critical. So many of CC and planning commission are 🧑 evil as u always decides with big developers and are gradually Selling is down River. So that being said the city density factors rising cause too much infrastructure issues like sewage Traffic. Way of life. (simple but sweet description.). I do not trust the city council at all or the planning commission. U need to stop following Mr Weiner of San Francisco and stand up to Sacramento suggestions or dictums. I love the 55 foot height 🧑🏰 rule and love remodel of buildings. I do not want eminent domain. I know most of you will ignore me and show arrogance and do not care about my concerns of traffic. Density. Infrastructure costs to tax payers. Yes there is the ballot box and we will vote against most of you. Most of you will not write a retort. Yes I cut to the chase to save time and verbiage. Yes those of you seeking a higher office will see comments publically about your voting Records. Rick Karr
