Team

Closing down B street is step in right direction. Now we need to make it look desirable.

I suggest

1. Get rid of plastic road blocks and get professional. That can be raised or lowered below ground if needed to have emergency vehicles drive down

2.

The City needs to build "CONSISTENT" permanent structures that would still allow for emergency vehicles to drive down middle of b street if needed.

You need to make consistent and classy. Not fold down table and chairs. Make it enjoyable to walk the street. Even string Lights from one side of the Street to the other (attach to buildings) to create ambiance.

Pass cost on to landlords as you are giving them increased footage that they did not have before....
Finally level the street and make it presentable...

Thanks for listening
