Subject: KEEP Measure Y in Place

To whom it may concern:

I am writing to express my strong opposition to any attempts to remove or modify the height limits enshrined in Measure Y.

While some may argue that its height limits limit new housing, it is important to note that City staff confirmed that the voter-approved measure meets state-mandated housing needs.

As a result, there is no reasonable justification for allowing taller buildings when the voter-approved measure meets state-mandated housing needs.

REMEMBER: San Mateans have voted three times in 30 years to keep height limits the way they are, and it is your job to respect that vote.

For these reasons, I urge you to reject any attempts to modify or remove the height limits in Measure Y.

Sincerely,

Doug D'Anna
