Subject: San Mateo Nightmares

Dear Committee—

I am not sure what your priorities are, but your county is becoming a congested community under your guidance. I know the state has issued mandates for multi-housing developments, and that is equally disturbing. It has created a frenzy of building that is producing traffic congestion, a shortage of medical services and a disappearance of any neighborhood camaraderie.

This is not my first letter, but I am sending it anonymously because your reply to my first complaint was so much pabulum and so little substance. I wish I could re-cast my vote to change the structure of the state and local governments so they could focus on maintaining the quality of life we expect in San Mateo instead of the quantity you are now dishing out.
