Subject: Measure Y Height Limits!

City Council Members~

When are you people going to understand??? Measure Y was voted on by the people of San Mateo. We voted for height restrictions. How can Lee keep disputing this? It's a done deal by the voters! I think it's time Lee steps down as Mayor and let's get someone in office who listens to the voters. Not someone like Lee who has all the developers as her contributors and only wants to please them. This is actually very embarrassing listening to her "whine" over something that was voted in by the people/voters of Sam Mateo. For heavens sake Lee do your job for once, do want we voted for and "quit" trying to find a loophole to get out of it! Measure Y passed!!!
