Subject: General Plan - building height

Hi,

I am not supportive of providing a variance to Prop Y to allow 7 to 8 story buildings built. The master plan has not addressed how they are going to mitigate the additional demand on parking, traffic, water supply, schools, outdoor space, hospitals, etc. The citizens of San Mateo have voted to keep height limits and this should be upheld.

A majority of people are still working remotely which will be coming to an end and traffic and parking issues will explode.

A concerned resident of San Mateo of almost 20 years.
