Subject: Please uphold Measure Y - April 3 meeting.

City council members, and San Mateo City Mayor-

I am writing to express my continuing support for measure Y and its dictates on limiting height and density for our growing downtown. San Mateo is clearly 'under construction' at the present time, and we must abide by the expressed will of the voters.

I have written before to express my ongoing support of the passage of Measure Y and simply wanted to reiterate it again at this time.

Thank you for listening to the voters, and for not attempting to overturn their expressed desire. San Mateo is thriving, and does not need the addition of more high rise high density buildings in our core. Measure Y should not be ignored.

Respectfully submitted,

Pam Mills Casey
