Subject: More outreach needed for 25th Ave. project.

To our San Mateo City council members,  
I live within District 5 of San Mateo. I was born in San Mateo...went to Knolls, Abbott, Hillsdale, CSM and am invested in my hometown.  
Only recently have I been made aware of the large 25th. Avenue and adjacent church parking lot projects that seem to be almost ready for acceptance by you.  
What about all the neighborhood outreach that is always placed on your marketing ads when large projects like this one have been proposed?  
Didn't we already vote to restrict heights with Measure Y? To override the voters I feel there should be much more input than has been provided.

Please, do not move forward and approve anything on this proposal project until more of those who will be personally impacted are heard from.

Thank you,  
Emily Heinz.
