Subject: Fwd: Proposal to override measure Y & 25th Ave project proposal

Dear Neighborhood Council Member, Adam Lorraine and all other Council Members,

We too agree and are quite distressed to learn of the Proposed General Plan Land Use and Heights for our 25th Avenue Area and the height limit proposal to override measure Y. We reiterate and copy below our neighbor concerns which are the same for us and all in our neighborhood.

It seems very odd that nobody has contacted the neighbors (who would be directly affected by this drastic change in our neighborhood) about the proposal to override Measure Y. Now, just two days before the proposal will be brought up at a City Council Meeting, a kind neighbor has told us about this proposal. Why were we not notified about this proposal and that it will be discussed without proper notice? It is very wrong of the City Council not to keep their constituents aware of what they are planning for our neighborhood,

Therefore, please table discussion on this proposal until neighbors on 22nd, 23rd, 24th, 25th, 26th, 27th, Buena Vista and Isabelle Avenues; Flores, Garfield, Edison and Hacienda Streets; Portola Drive; Delmar Way; Mary Lu and LuluBelle Lanes and 26th Place have been thoroughly informed about this proposed change to their neighborhood.

Thank you
Barclay & Claudia Moquin
