**Subject:** Height and density limits and Measure Y

Dear Mayor Lee, Deputy Mayor Nash, and Council Members Loraine, Newsom Jr., and Hedges,

We are writing ahead of the City Council Study Session tonight regarding height and density limits for the Public Review Draft General Plan. We would like to ask that the Council keep the direction aligned with Measure Y, as that is what the voters requested through the ballot box.

It seems that the state has already allowed developers an additional two stories past the limits of Measure Y.

Thank you for considering public comments.

Martha and Stephen Park
