Subject: New message on Strive San Mateo

Name: Robina Ramm

Email: [REDACTED]

Message: You claim to respect Open Space, pedestrian safety, car accidents, and commuter traffic. Then who came up with the idea to consider an already congested, dangerous area of traffic in Study Areas Map #6?

Hwy 92, only 4 lanes, already a nightmare of congestion for both commuters and people living here trying to maneuver the poorly designed on/off ramps between Hillsdale and Hwy 101.

The few trees left around Campus Drive provide a little shade and refuge. You suggest possibly bulldozing them? Perhaps you haven't seen the road kill each year of our deer, raccoons, foxes... the few left in San Mateo!

We already have SMCC, Hillsdale Blvd corridor, Laurelwood Park, and a dangerously steep De Anza Blvd between the off ramp at De Anza to Laurelwood Shopping center, that has been in a "safety" study for years due to the high traffic of bicycle riders and narrow area. Now you want to further develop this area?

Clearly we will have to "follow the money" and contacts generated in your planning.
