**Subject:** Draft General Plan 2040

I wanted to share my comments on the Draft General Plan 2040 for San Mateo. I am a resident who lives on E 5th Ave near S Grant. I am in favor of greater density in my neighborhood, and greater height limits.

I specifically want to note that the Central Neighborhood Association should not be seen to speak on the behalf of myself. The CNA holds no elections and makes no effort to make certain its stances are held by any of its residents. Please do not take the CNA to be a body representative of anyone other than small handful of people that monopolize the organization.

Sincerely,  
Daniel Schonberg
