Subject: Re: DRAFT EIR - General Plan

Dear Team-

What about west side of Delaware St between 5th & 9th - that appears to be residential medium. We don't have anything 3-5 stories in this area and we need to preserve the stock of single family/duplex homes for low and medium income families, as well as the character of the neighborhood.

Also, interesting that Claremont directly behind is mixed use low (2-4) stories which is lower than what is showing for S Delaware.

We need to protect our homes from increasing height limits!

Frances Souza
