Subject: [Konveio Inquiry] General Plan says it will work to preserve local services/shops

I find this to be a great aspirational goal but wonder how you will do this. For instance, Parkside Plaza is on the site list for future development and I wonder how you can keep a grocery market, let alone a discount market, available in that site. Won't that be up to the developer whether they choose to build a site amenable to a market? How will you help us keep our local services/shops?
