Subject: New message on Strive San Mateo

Name: Mark Rau

Email: [REDACTED]

Message: adding that if you are focused on air quality and noise in the general plan you should also look into improve air quality/noise from the freeway. the freeway wall on the west side of 101 is inadequately low. it stretches from central through sunnybrae. noise and pollution bounce off the much taller wall to the east and right back over the west wall into the neighborhoods. this provides those in central and sunnybrae with brake and tire dust and additional noise.
