The General Plan 2040 appears NOT to adjust for a POST - COVID world. Why housing near transit when people are not using transit? The bulk of the commuters that used transit have left the Bay Area, and will NOT return.

We do not need more ugly buildings such as the one that replaced Trags Market, which is hardly affordable. Look at how empty the Millbrae apartments are that replaced the BART outdoor parking lots.

Who wants to live on top of noisy trains and buses???

Sincerely,
Laurie Livingston
